

Mastercam does not limit you to manufacturing on our terms. We make Mastercam available to work on yours. We have flexible licensing options available to ensure you have access to the performance, productivity, partnership, and progress of our industry-leading CAD/CAM software.

We will help you identify the best options for your business, from the software package to the licensing options to the payment terms. Whether you are looking for an affordable entry point or options to scale your technology in alignment with your shop floor, business strategies, and financial requirements, you can count on Mastercam for support.

Subscription License

Subscription licensing offers a lower upfront cost. It is renting a license for a term versus paying for a perpetual license outright. This provides flexibility with lower, predictable payments to access the productivity benefits of Mastercam's industry-leading CAD/CAM software.

- You pay for the right to use Mastercam for a period of 12, 24, or 36 months — with discounts available for 24- and 36-month options.
- Available with software licensing only.
- Subscription users have access to the latest version of Mastercam.
- At the end of the subscription term, you may renew or let the subscription lapse.
- If subscription term lapses, access to Mastercam is terminated.
- You may renew subscription terms at 12-, 24-, or 36- month intervals.
- You also receive the benefits of Mastercam Maintenance such as exclusive Mastercam University® content and access to the Mastercam Tech Exchange.
- A local, Mastercam Reseller is available for sales, training, troubleshooting, and support.

Perpetual License

A perpetual license to operate Mastercam offers a lower price over time. This is a software license to operate Mastercam, paired with Mastercam Maintenance to give you the ability to upgrade to the latest version of Mastercam for the duration of the Maintenance term. This provides cost savings for users with long-term planning and budgeting capabilities.

- A perpetual license does not expire — you may operate Mastercam as long as you maintain the PC and operating system requirements necessary at time of initial install.
- Software and hardware licensing are available.
 - As of January 1, 2021, hardware licenses will incur additional fees.
- Maintenance users have access to the latest version of Mastercam.
 - A perpetual license delivers all Mastercam updates and major releases available during Maintenance term.
 - At the end of a Maintenance term, renewal terms are available for purchase — *the software license does not need to be repurchased.*
 - If Maintenance is not renewed, the Maintenance will lapse, but the standard license will be available for use. The license will operate the last version of Mastercam installed during the Maintenance period —as long as you still have access to the technology required to operate Mastercam at time of that initial installation.
- Maintenance terms may be added in increments of one year.
- You have access to content and resources exclusive to Mastercam Maintenance customers.
- A local, Mastercam Reseller is available for sales, training, troubleshooting, and support.
